## ABSTRACT INFORMATION:

Number of Layers Used:9(Including text layers)

Font used in text: SANS SERIF

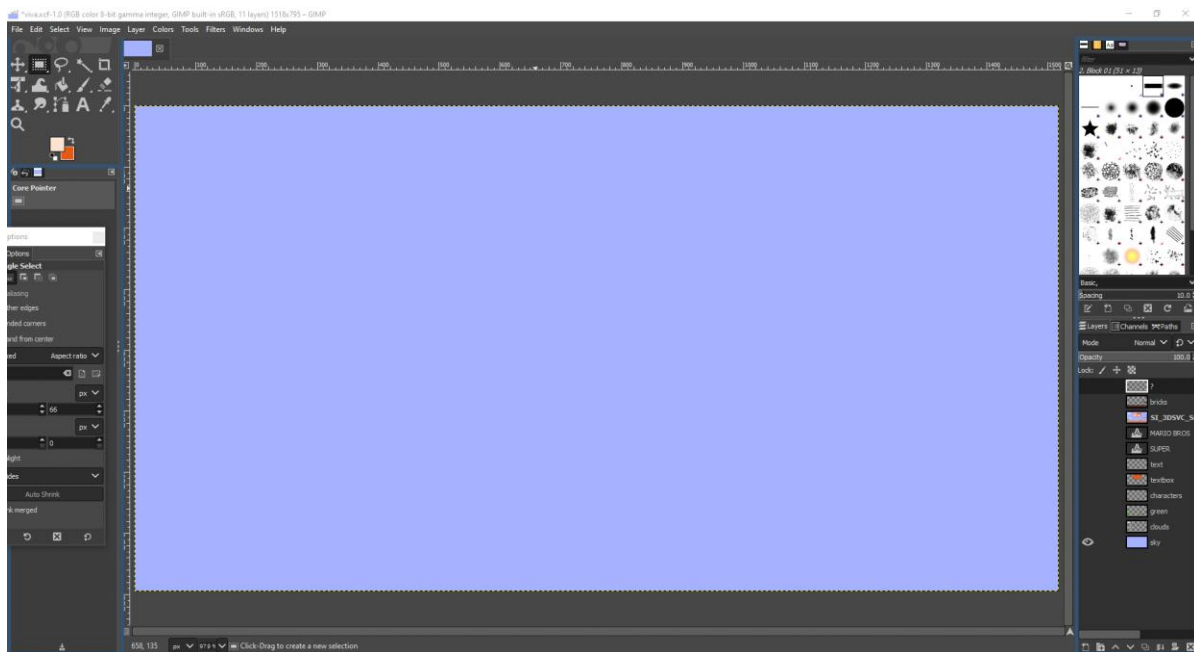

Text Size: 62-72

Text Colour: LIGHT BROWN

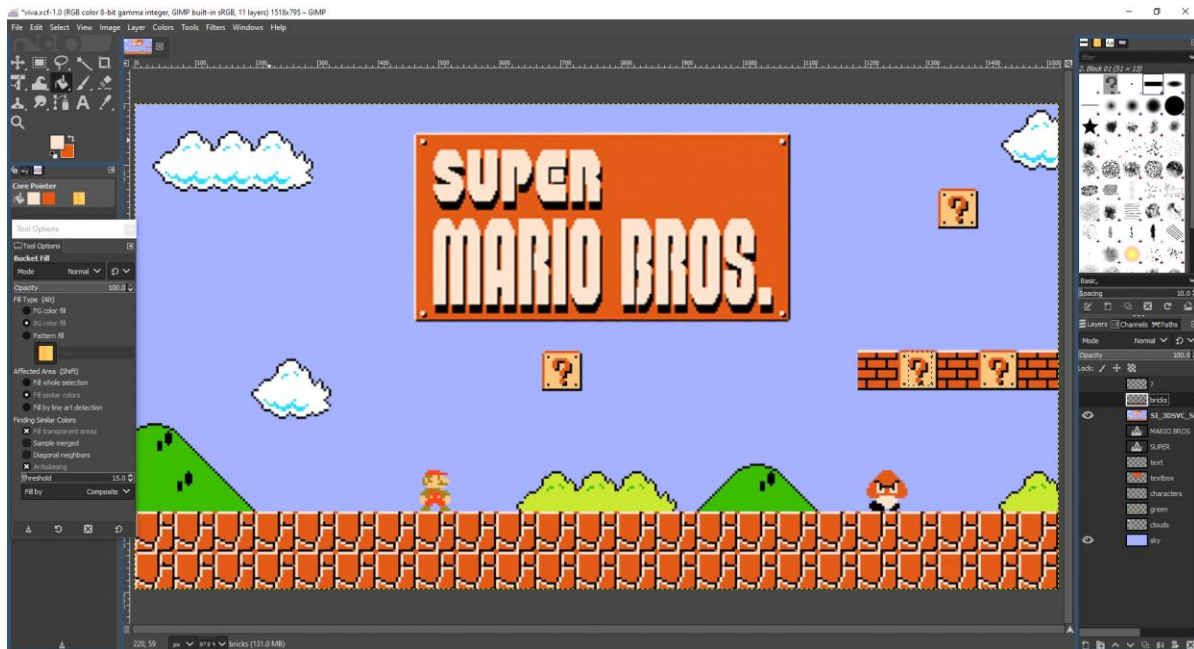

Text Opacity: 100%

## PROCEDURE:

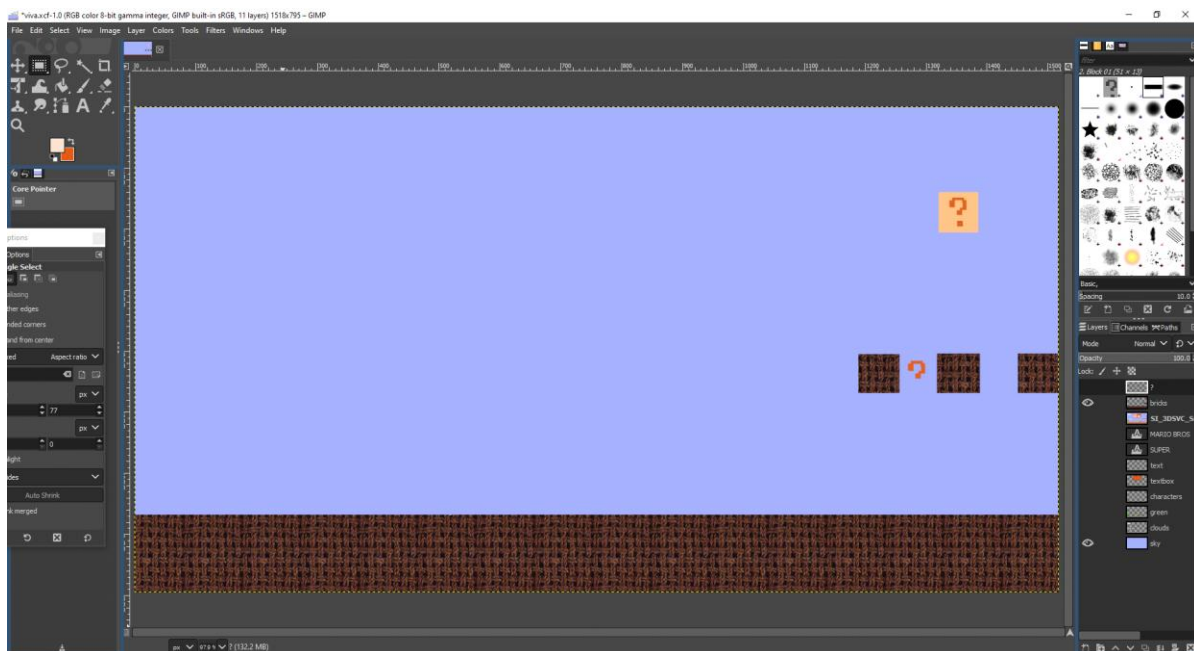

- Use 1600\*800 Canvas with Blue background colour.

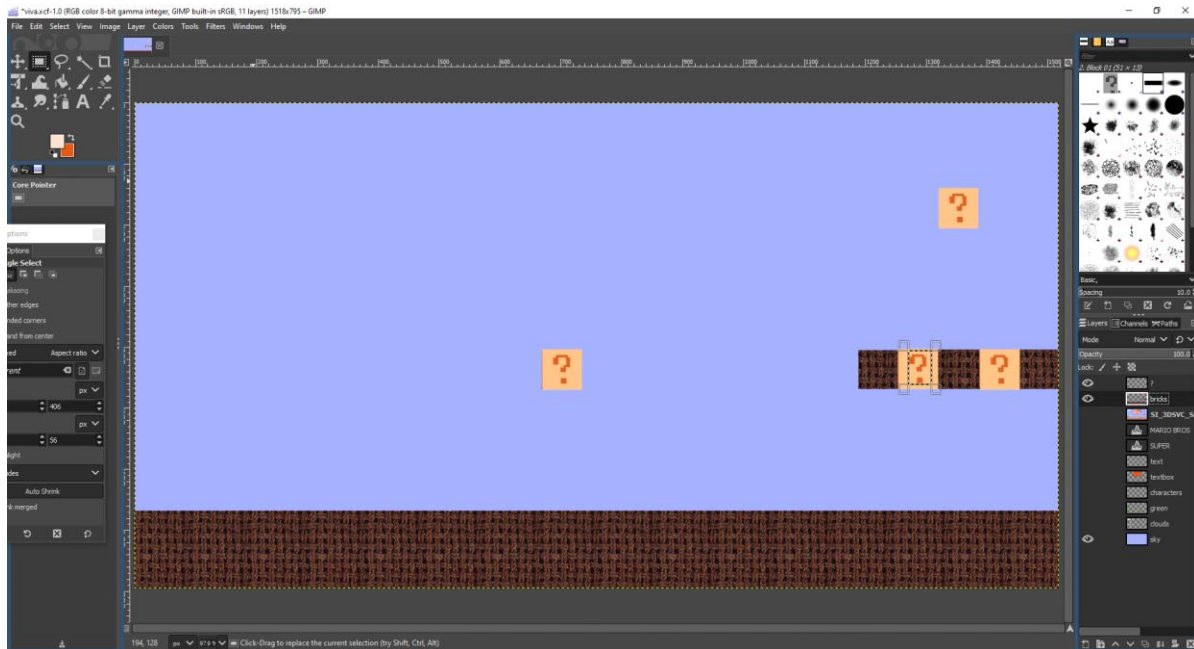

- Now add new transparent layer using option new layer
- Now open your reference using open as layer.

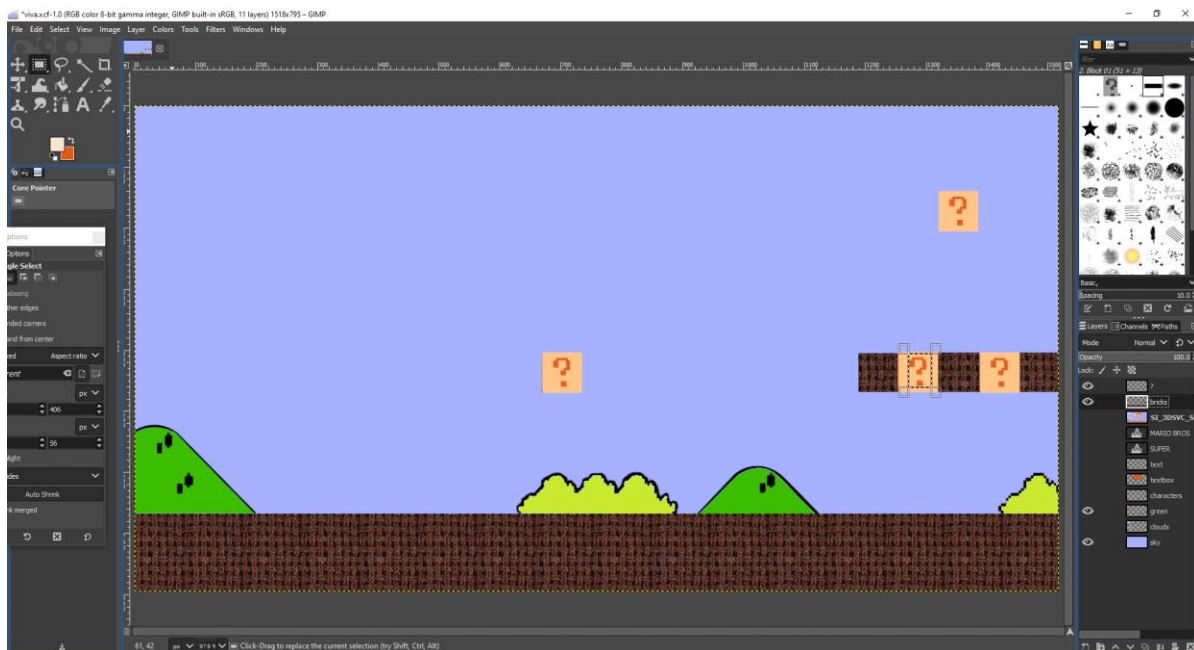

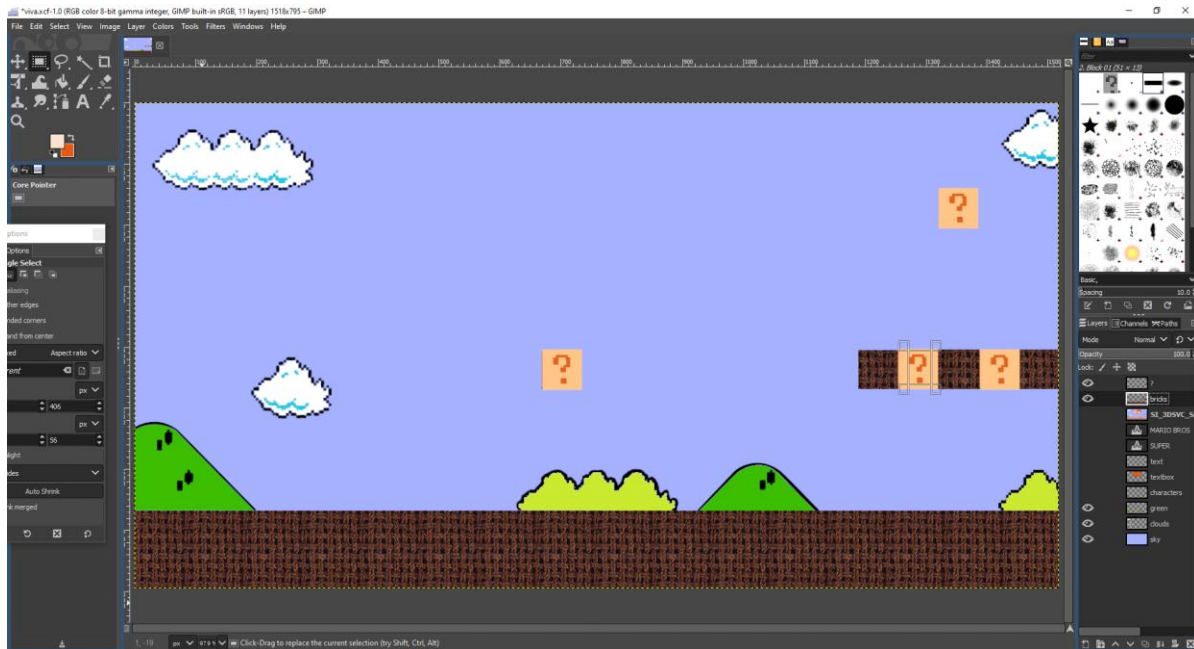

- Use the rectangular selection tool trace the ground and bricks.

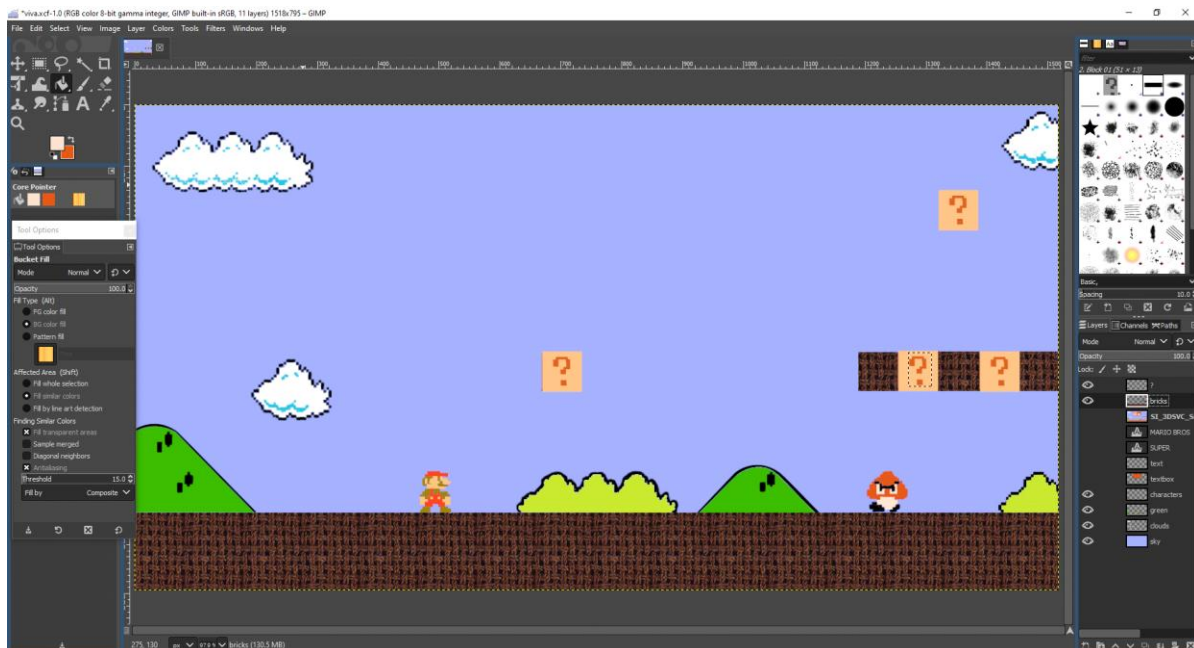

- 
- Now using the path tool trace out hills, bushes, clouds one by one on new layers.

- After the trace is complete go to layer then right click and use fill path to fill it with foreground or background colour.
- With combined use of reference, high zoom-in and paint brush, paint the characters.

- Now add another layer and Create text boxes and write the required text in the specified font.

- 
- For writing the text we used the text tool
  - Font used in text: SANS SERIF
  - Text Size : 62-72
  - Text Colour: LIGHT BROWN
